SETTLING UP SAMOA.

The Work of the International Conference Nearing Completion.

BLAINE HAS BEEN ON GUARD.

The American Delegates Received Daily Instructions From Him.

KING HUMBERT FORCED TO BACK OUT.

French Protests Prevent Him From Going to Strasburg With William.

The work of the Samoan conference is believed to be nearly completed. The plan of government has been drawn up, and but Bittle remains except to affix the signatures. Blaine is understood to have taken an active part in the negotiations by cable. The new agreement between Germany and Italy is attracting a great deal of attention.

[COPYRIGHT, 1889, BY NEW YORK ASSOCIATED PRESS.]

BERLIN, May 25 .- Sir Edward Malet, Mr. Kasson and Herr Holstein, as a com mittee on revision, completed to-day a draft of a protocol concerning Samoan questions. It contains clau-es relating to the municipal Government of Apia, the ports held by the powers, the laud commission and the autonomy of the Samoan Government, the

The remaining clauses defining the tariff. Government and the limitation of the Gerhave been framed in consonance with in-

of the conference on Tuesday, when the business is expected to be limited to the exchange of signature agreements. The success of the commission and the rapidity with which the business was got through with was partly due to the conciliatory attitude of Count Herbert Bismarck and the impartial policy displayed by Sir Edward Malet, and largely to the American Commissioners having definite instructions

covering every point.

The constant hard work of the subcommittees marvelously expedited matters, the plenary sittings of the conferences having ittle to do further than to hear reports Throughout no embarrassing developments have retarded the progress of the deliberations. When the conference began it was announced that the Foreign Office was conent that the sessions would terminate in the first week in June.

HAVING A GOOD TIME. The German official world, following the example of its chiefs, treats the American Commissioners with high favor. If they respond to all their invitations they would find their hardest work in recreation. Count Herbert gave conspicuous emphasis to his friendly feeling with each of the Commis-sioners by his friendly greeting at the Temoclhofer parade, when he left the parade o converse with each Commissioner, riding between the carriages of Mr. Kasson, Mr. Bates and Mr. Phelps, and exchanging

cordial words with them.

King Humbert's projected visit to Strasburg was countermanded after the Italian Embassy received telegrams from Paris reporting the disturbance in the public mind. The arrangements at Strasburg included a review of the garrison and a night attack on the citadel. After Signor Crispi had re-gred the matter to Prince Bismarck it was announced that King Humbert would not whit Strasburg, but would keep on the Baden side of the Rhine on his homeward

GERMANY AND ITALY.

The revision of the treaty agreed upon during the King's visit has not yet re-ceived the adhesion of Austria. Associated with the treaty is a military convention fixing a definite plan for the mobilization of the Italian army in the event of war. Signor Crispi wanted an entente on the question of the Papacy. Prince Bismarck obtained from Signor Crispi a pledge for a moderate internal policy toward the Vatican, and hae asked the Austrian Prime Minister to join in united pressure on the Pope to make peace with the Quirinal. It is understood that Emperor Francis Jo

seph reluctantly allowed Count Kalnoky to intervene in the matter, and the Pope, on receiving private assurances of the Austrian Emperor's sympathy, promptly rejected the overtures. The result is a distinct breach in the continuity of the alliance. The re-vised treaty will probably remain unsigned until Emperor Francis Joseph and Count Kalnoky pay their expected visit here. The Italian Generals Polands and Sironi remain in Berlin to settle the details of the military convention with the War Office. A LITTLE DIFFERENCE.

The adverse rumors go the length of asserting that the difference with Austria is leading to a rupture of the alliance, Emror Francis Joseph inclining to regulate the Balkan questions in conjunction with Russia. The official circle absolutely denies that a rupture is within the range of probability. King Humbert, in a letter, thanks the people of Berlin for the splendid recep-tion accorded him, and sends a gift of 20,000

marks for charitable objects.

The situation at the Westphalia collieries continues critical. According to Rhenish papers, the proclamation of martial law is imminent. Hitherto the miners have held aloof from the Socialists and have resented their approaches. Now there are symptoms of impatience under the passive resistance of the masters. Herr Weber, President of the Bochum strike committee, was arrested after making a speech last night, in which occurred the phrase: "War against capital; victory or death is acclaimed.

The miners in several pits in Bochum, Gelinkirchen and Anchen will go on strike again, Herr Hammacher having failed to get the assent of the owners at Dortmund vesterday to the concessions demanded. It is understood that they will be granted after the Berlin convention. The men accuse the employers of breach of taith.

THE STRIKES SPREADING The other strikes grow. The 6,000 ma-sons in Berlin, who resumed work under the belief that the employers would grant their demands, will strike again on Monday. Nineteen thousand men employed in the building trades are now out here. The dock laborers and porters at Hamburg threaten to strike. This would cause serious embarrassment in the supplies of grain and coal for the interior, Coal ships have been lying in port for a week undischarged. The companies are trying to import English inborers. The aged workmen's insurance bill passed

the Reichstag yesterday by only 20 majority. Prince Bismarck wanted 70. Minister von Boetticher, in announcing the vote and declaring the sitting closed, said he hoped the objections to the measure would disappear when the workings of the law disclosed its benefits. Herr Rickert tried in vain to elicit from the President some information regarding the press law. The impression of the House is that another short session, which will be devoted to the discussion of the new penal code, will end the present

NOT SO BLACK AS PAINTED. One of Dickens' Famous Characters Finds a

Defender.

IBY CABLE TO THE DISPATCH.] LONDON, May 25 .- Rather late in the day a man has arisen to defend our old friend Squeers, the master of Dotheboys Hall, and to paint his daughter Fanny in pleasant colors, incidentally of course attacking Dickens most flercely. The story, which is very interesting, is told in the Newcastle Chronicle. It relates that in spite of Dickens' denials, it is absolutely certain that the original of Squeers was a most estimable man, and that it must have been he, as he was the only school teacher who had only one eye in the neighborhood of Gretna Bridge. He was a very good man and very kind to his pupils, but had the mistortune to be not very polite to H. K. Brown and Dickens when they in-vaded his school, when he and his daughter

were at work.

The girl, the sweetest and kindest of women, was known to the writer when he was an apprentice. She is spoken of as the sort or woman a dog or child leaps to instinctively, which is not what we have or dinarily thought about her, Both the father and poor Fanny died of broken hearts. The father also went crazy.

PIGEONS THAT BREAK THE SABBATH. A Comical Attack on a Sport That is Being

IBY CABLE TO THE DISPATCE.1 LONDON, May 25 .- A comical attack has been made upon the sport of flying pigeons, on various grounds, among others the untruthful one that it encourages very heavy betting and the extremely ludicrotts one that carrier pigeons are made to fly on the Sabbath, contrary to the Ten Command-

The President of the Manchester Flying Club being interviewed, instead of expressing a belief, in which the community would support him, that the commandments do not apply to flying pigeons, has solemnly denied the accusation of Sunday pigeon flying, saying that pigeons seen flying on the Sabbath are doing it on their own book, without any encouragement from the club and that when a pigeon race necessitates flying on Sunday the race is invariably de-

It is not the fact alone that we make it a point of having in stock everything to please the varied tastes, ideas, fancies and demands of the public, which is the means of bringing such huge crowds of people-aye, and buyers at that-to our store. It is the undoubted fact that our enormous trade is the direct result of us always acting on the broad gauge principle of selling all our goods at BEDROCK PRICES. Nay, more than this, by reason of our expenses being about ONE-FOURTH of the marble-front and encaustic tile-floor establishments, we can, and do, positively SELL ON TIME AT LESS PRICES THAN OTHERS WILL SELL FOR ACTUAL CASH. And when we sell for each we charge at least 40 per cent under the prices of all or any other dealers in town. Now, what do you want to make your house complete? It is for you to say. We have EVERYTHING to furnish a house complete from cellar to garret, and will sell you anything in our store on time payments to suit you.
